

## JAMES BURN EB 5000 / 7000

### Electric Wire-O® Finisher

**ENHANCE  
PRODUCTIVITY  
WITH CONSISTENT  
FINISHING QUALITY**

### WIRE-O® WORLD AT YOUR REACH!

Simple and quick Wire-O® size adjustment with rotating knob.

Tilted closing table and closing jaws for an optimum positioning of the document to be bound.

The optional hanger feeder is a simple plug and play unit which can fit the WOB3500 machine too.

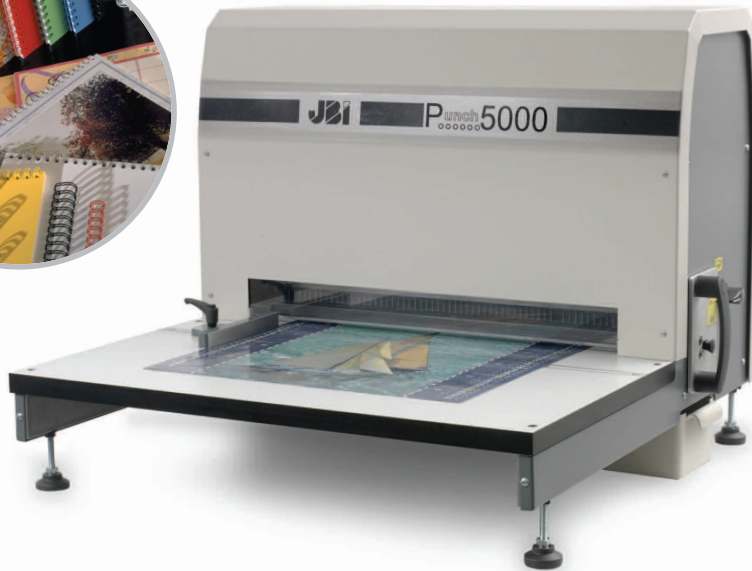

It inserts automatically hangers (n°3, from 70 to 150 mm) loose or on reels.

The optional stand provides full installation flexibility and minimises machine footprint.

### Technical Characteristics:

<b>Dimensions and weight:</b>	EB 5000 : 600 mm x 500 mm x 250 mm / 41 kg (W/D/H) - (L/P/H) - (B/T/H) - (I/A/AI) EB 7000 : 800 mm x 500 mm x 250 mm / 49 kg (W/D/H) - (L/P/H) - (B/T/H) - (I/A/AI)
<b>Voltage:</b>	220-240v - 1 ph - 50 Hz 110v - 1ph - 60 Hz

## JAMES BURN PUNCH 5000

### **HEAVY PUNCH but LIGHT COST!**

*This compact and heavy duty electric table top console punch is the perfect answer for medium size runs. Its punching width and capacity will accommodate most of the punching jobs in the printing environment from books to calendars with single or double perforation lines.*

### **Technical Characteristics:**

- **Maximum punching width:** 500mm / 20".
- **Punching Capacity:** up to 2.5mm / 0.1".
- **Voltage requirement:** 220-240V 50Hz or 110V 60Hz.
- **Dimensions:** 700mm (W) x 700mm (D) x 500mm (H).
- **Net weight:** 83Kg / 184Lbs

### **Features and Benefits:**

- Large and stable table for optimum working position.
- Easy and accurate horizontal sheet insertion with large adjustable side lay gauge.
- Punches bites of up to 2.5mm thick in any material regardless of the punching pattern.
- Convenient tool storage underneath the tray for better tool protection and even faster change over.
- Fast and easy punching tool change over.
- Easy pre set edge to hole margin adjustment.
- Reversing switch for quick and easy release of the bite in case of jam avoiding damage to sheets.
- Large confetti tray
- All pins can be easily disabled for custom punch patterns (all pins being the same length, no re-positioning difficulty) and built-in extra pin holder for the disabled pins so no risk to loose them
