

## **JAMES BURN PUNCH 3400** *Electric Punching machine*

*When Innovation  
makes productivity &  
flexibility compatible...*

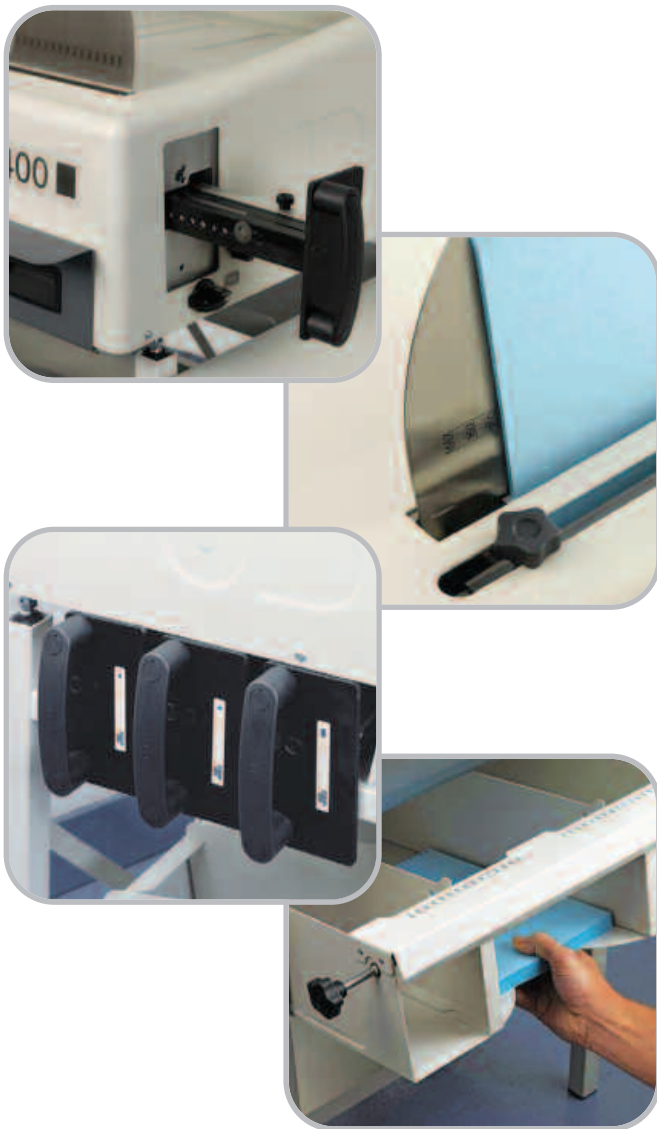

*The latest innovation from Lhermite®, the **PUNCH 3400**, is a heavy duty electric tabletop machine suitable for all punching applications when automatic equipment is not appropriate. Compact, it takes little working space. Combined with the optional reception module, its unique punching, sheet-ejection and stacking system in **ONE** operation provides one of the highest outputs\* in its range for a minimum investment.*

*\* 15,000 to 18,000 sheets/hour, pending on operator and nature of documents.*

## Lhermite

**JBI**  
**JAMES BURN™**  
**INTERNATIONAL**

### FEATURES and BENEFITS

- Punches up to 30 sheets (80gsm) regardless of punching hole pattern.
- Punching, ejection and stacking in ONE operation with optional reception module re-delivering the punched sheets in the right order for increased productivity.
- Fast and easy punching tool change over.
- All punch pins can be easily disabled for custom punch patterns (all pins being the same length, no re-positioning difficulty).
- Easy edge to hole margin adjustment.
- Selectable operation mode (sheet presence detector or foot pedal).
- Easy and accurate vertical sheet insertion.
- Reversing switch for quick release of paper jams.

### TECHNICAL CHARACTERISTICS

- **Max sheet sizes** 340mm x 340mm
- **Punching capacity (A4, 80gsm)** 30 sheets
- **Punching speed** 60p/mn
- **Voltage** 220-240v/50Hz - 110v/60Hz
- **Dimensions** 680mm(L) x 565mm(W/T) x 460mm(H)
- **Nett weight** 50 Kg
