

JAMES BURN PUNCH-BIND 3300 *Electric Punching / Binding machine*

***The professional
tabletop Wire-O®
document finisher***

The PUNCH-BIND 3300 is a powerful document finisher designed by Lhermite® to efficiently produce a wide array of professionally Wire-O® bound books of up to 210 sheets and a maximum of 13"(330 mm) bound edge. It is the perfect mid size Wire-O® document finishing solution for business offices, central reproduction departments and digital / on demand printers. This versatile electric punch with electric closer is simple to operate and its small footprint allows easy placement wherever it is needed. The electric closer enhances productivity and guarantees a consistent finishing quality. The unique built in Wire-O® cut length holder facilitates document insertion and saves valuable operator time.
