

JAMES BURN WIRE-O® BIND 3500 *High Speed Binding Machine*

**Accurate Wire-O®
document finisher
for on demand
applications**

At 500-1000 books per hour, the semi-automatic WIRE-O® BIND 3500 is a fast, yet simple to operate machine with all size and format setups instantly adjustable by user-friendly touch screen electronic controls. The versatile WIRE-O® BIND 3500 is designed to work alongside the highly successful Alpha-Doc® and Docu-Punch® automatic punching machines, accurately finishing a wide variety of documents, including oversize covers and tabbed sheets, for all Wire-O® sizes up to 1-1/4". Together, they are the perfect high speed Wire-O® finishing solution for today's modern in-plant, digital and on demand printing environments, where ease of use, versatility and productivity are a must.

FEATURES and BENEFITS

- User-friendly and efficient - Simple touch screen controlling all size and format adjustments, settings and change overs: no special training required. Wire size changeovers in less than 5 minutes. Books delivered onto a static reception tray / stackable conveyor.
- Versatile - Finishes all 3:1" and 2:1" pitch Wire-O® sizes from 1/4" to 1-1/4" with max 3 skip binds. Finishes all documents with flush cut and oversize covers as well as tabbed sheets.
- Outstanding productivity - Output rates of 500 to 1,000 books per hour depending on format, paper quality and operator skill.
- Hanger feeder - The optional hanger feeder for the WOB 3500 is a simple plug and play unit. It inserts hangers automatically taken from reeled or loose hangers. Output rates of 350 to 500 calendars or books per hour.

TECHNICAL CHARACTERISTICS

- **Binding formats** Min: 65mm x 80mm
